Dear Planning Department

Re: DM2025/01591

I write in support of the above planning application.

I visited the site of the former ambulance station at the open day for local residents with my wife. I consider the project a wonderful local initiative which is well supported in the community. It will provide a much-needed focal point for prayer as well as a multi-use community space.

I have no concerns regarding parking. There are a number of parking spaces at the centre. Friday prayer times will be staggered to avoid school pickup and drop-off times.

Looking at the design of the development, it is on a relatively small scale with no obvious intrusion into the local street scene. It works well and blends into the character of the area.

The centre is likely to be very family orientated with a space for women and children and various classes and activities. As a retired man I hope to make good use of it since there are so few outlets for the retired in the Borough. I hope that Sutton Council will see the value of this exciting community-based project.

Yours Faithfully,
