22nd February 2026

Dear Sir/Madam,

I am writing regarding DM 2025/01591,
the application for the old ambulance station on
Dorset Road. I object to this due to the lack of
parking provided.

I am a disabled 94 year old lady
requiring carers to attend me 4 times a day
so I am got up, washed, dressed, fed, changed
and put to bed throughout the day.

My carers really struggle with the
congestion caused by school traffic so I can
be left waiting for the attention I need.

I have also needed ambulances on 3
occasions in the last 6 months and am
worried that more on street parking could
result in urgent medical care being delayed.

My carers have commented on several occasions about lack of visibility when emerging from Balmaral Way onto Dorset Road. I would also like to point out that in being delayed by traffic when attending to me it affects the service they provide to others in my situation awaiting their care.

Yours faithfully
