PRE2025/00079

Details of the pre-application advice received

It is concluded that this pre-application submission for the Change of Use of the former Sutton Ambulance Station (Sui Generis), Dorset Road, into a mixed-use Community Hub and Place of Worship (Use Classes F.1 and F.2), is likely to be acceptable in principle, however at this preapplication

stage, as detailed above, the Council do have concerns regarding the noise and disturbance that could be caused to the surrounding residents and the impact that the proposal could have on the parking situation within the surrounding streets during the busiest events at the centre.

Whilst it is proposed that many of the community sessions that would take place at the centre would have a limited amount of people attending, it is evident that the proposed building could have a high maximum capacity, and is likely to attract a significant number of people from the surrounding community for certain events, whilst it would not be reasonable or effective to restrict the number of people that could attend, the hours of use could be limited to ensure that levels of disturbance to neighbours could be minimised, this is an issue you will need to consider prior to making an application.

As mentioned during our meeting, you are strongly advised prior to the submission of any application, to engage with local residents and groups within the local area as this will help provide reassurance to those residents that might need more information regarding the proposed community use and provide BASMA with links that will assist in achieving the multi use of the community centre and establish good strong relationships.

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
