Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to the application. The proposed site sits within a quiet residential area. This area and surrounding streets already experience significant parking pressure due to the close proximity to the Avenue primary school. We as residents already see unsafe parking especially at school pick up and drop off times. In addition staff from the school park in the roads. The proposed development does not appear to provide sufficient off street parking to accommodate the potential numbers expected to be attending the centre. This is likely to lead to overspill parking in nearby residential streets, leading to obstruction of driveways, reduced road safety, and increased congestion.

In addition the change of use will generate an increase in noise from increased vehicles and large numbers of people leaving the facility up to 11 pm at night.
