Comment Reasons:

Comment: As a resident of Dorset Road, I have reviewed the BASMA Community Hub proposal and wish to formally express my support for planning application DM2025/01591.

The project makes very good use of the former ambulance station site - replacing a building that previously operated on a 24-hour basis, with associated vehicle movements and activity, with what will now be a calm, community-based facility. I particularly appreciate that the site will no longer function as a 24-hour operational premises, which in itself represents a positive change for surrounding residents.

The proposed design is modest and carefully considered. It does not introduce a new upper floor, but only a small roof adjustment to improve internal height. In my view, the plans demonstrate sensitivity to neighbouring properties and will not result in overlooking or overshadowing of nearby homes.

From what I understand, the daily activities will be small-scale - such as classes, wellbeing sessions, and community drop-ins - rather than large events. Friday prayers are short in duration and are being managed thoughtfully to avoid clashes with school-run times, which shows a responsible approach to traffic and neighbourhood considerations.

Overall, I believe the new community hub will be a quiet, well-managed and responsible neighbour, providing genuine benefit to local residents while improving the character and function of the site.

I respectfully ask the Council to approve this application.
