Comment Reasons:

Comment: I am very pleased to hear about an old ambulance centre changing into a community centre and place of worship for the local community. My experience of these community centres is that they bring the community together and provide support for elders and the weak in the community. It is also a centre where youth can be involved in community service and their personal development. I have seen youth clubs and ladies health programmes as well as mental health support hubs running for all ages which is a great demand for the society. It will prevent people from isolation and we can watch out for each other.

I see a great need for a community centre and faith-based centre for the ever-growing community. I am truly impressed and support this development. Thank you for giving me the opportunity to voice my support.

Kind regards

Nadia Hassan

Best Wishes
