Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I know this area well. With a reputed school nearby which has a peak footfall in times, to add a place of worship and community centre will crowd the place even more. It will be highly inconvenient for the residents. This will pose a risk to children at school during peak hours. There is hardly any parking space and to add a place of worship will crowd the place even further. This is a direct impact to local residents especially elders and the vulnerable. The road is also a single entry/exit making it even worse with an additional load. I do not think this is a feasible option to change the Ambulance service into a congested area which will over crowd and risk the residents and vulnerable including children and elderly. I firmly reject and object to this change.
