Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I am afraid I need to object to this application. I am a resident of Balmoral Way and we already suffer access and parking/driving issues during the week from parents dropping off, picking up and parking in Balmoral Way, Dorset Road, Avenue Road, Holland Avenue and York Road continually. The Council has done nothing about this parking. Additionally, we face cars being parked in Balmoral Way from the adjacent roads through the alleyway leading to Belmont Station as there is insufficient parking for the residents of those roads. The parking situation and simply getting through to one's home is currently unacceptable and the Council's parking strategy has not made the situation better, but worse. The whole of Balmoral Way should be residents only parking in my view. Permitting this application will: A. worsen an already terrible driving and parking situation which is already getting worse not better, B. open up local residents of Dorset Road, Balmoral Way and Adjacent roads to disturbance beyond the reasonable hours of activity both during the week and at weekends, C. cause unnecessary disturbance to our access to Balmoral Way (directly opposite the ambulance station) and D. make the lives of residents miserable with an already intolerable parking and access situation. As a person of faith, I have no objections to a site, it simply should not and cannot be at this location as the effects on the local community and residents which is already at bursting point would be totally unacceptable.
