Comment Reasons:

Comment: Dear Sir/madam,

I write as a resident of Holland Avenue and as a healthcare professional to express my support for planning application DM2025/01591.

Alongside my clinical work, I co-ordinate community women's health outreach initiatives, including menopause awareness and support sessions. Through this work, I have seen first-hand how important accessible, trusted community spaces are. Safe and open spaces are needed to enable people to gain support for proactive healthcare, education, and peer support. This is particularly important for women of ethnic minorities, those who are affected by social deprivation and those who are vulnerable, who may not otherwise engage with formal healthcare settings.

The proposed community centre would provide an invaluable venue for hosting women's health workshops, menopause education sessions, health awareness talks, and other outreach initiatives. Having a local, welcoming space within the community would significantly enhance our ability to reach residents, reduce stigma around important health topics, and promote early intervention and wellbeing. We need this space to rectify the health inequality that's rife in the community today.

From both a resident's perspective and as a healthcare professional, I believe the centre will make a meaningful contribution to public health and community cohesion. It represents a positive and much-needed investment in local infrastructure that will benefit families, older residents, and vulnerable groups.

I am confident about the benefit to the community this centre will provide and I offer my full support to this application. I would welcome the opportunity to contribute to health-related initiatives hosted at the centre.

I respectfully ask the Council to unreservedly approve planning application DM2025/01591.

Yours faithfully,

Dr Naziha Khawaja
Resident, Holland Avenue
