Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: It is important that our area has additional local community services to support the needs of residents. I believe that repurposing the former ambulance facility into a community centre would be highly beneficial for everyone living here. The opening times of the nearby schools do not overlap, so any traffic generated by the centre would be limited, with peak times being more predictable and easier to manage. In addition, the provision of on-site parking will help to minimise congestion on surrounding streets. My family and I are very much looking forward to using the new services, and the ability to walk there on foot will be a real boost to our health and wellbeing.
