Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I support application DM2025/01591.

The proposal will deliver meaningful community benefits, including health and wellbeing programmes, inclusive facilities, dedicated space for women, and structured educational activities for children - all of which strengthen local cohesion.

The building is modest in scale and in keeping with the residential character of the area. Compared with alternative forms of development, this represents a relatively low-intensity, community-focused use.

The scheme provides 12 on-site parking spaces plus 2 disabled bays, cycle racks to encourage sustainable travel, and retention of greenery. The proposed staggering of Friday prayers to avoid school pick-up times further reassures me that significant traffic, light, or noise impacts are unlikely.

For these reasons, I respectfully ask the Council to approve this application.
