Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I support this planning application.

I have been a resident on Manor Road since 2013.

We have a very diverse local community and this community centre will go a long way in bringing our local community even closer.

Being a multicultural and multi-ethnic centre this will help us to bond more and become more cohesive in an already divisive society.

It will help promote mental and physical health of all residents irrespective of race, beliefs, colour or creed.

Not only will it develop an old ambulance centre and make it in line with the character of the neighbourhood but will add value to the surroundings.

I do not feel that there will be a significant impact on the traffic congestion as the gathering times will be scattered and the locals will be encouraged to either walk or cycle in. There is a provision of onsite parking as well as bike racks thereby not clogging up the local streets.

One could argue that this site could have been bought by a developer and overdeveloped as a plot with potential conversion into HMOs or flats, that would have been severely detrimental to our neighbourhood. This centre will preserve the area and enhance the overall surroundings.

I would therefore encourage the council to support and approve this application.
