Comment Reasons:

Comment: I am writing to express my support for Planning Application DM2025/01591.

I am a local resident and have lived in the area for several years. I believe this proposal represents a positive and responsible use of the existing building. The change of use to a place of worship and community hub will provide important community benefits, including health and wellbeing programmes, inclusive facilities, space dedicated to women's activities, and educational programmes for children.

The proposed extensions appear modest in scale and in keeping with the surrounding area. In my view, this will be a low intensity use compared to other potential developments on the site. The provision of 12 on site parking spaces, including 2 disabled bays, along with cycle racks, demonstrates that traffic and sustainable travel have been properly considered. I also appreciate that existing greenery is being maintained.

It is reassuring to note that Friday prayers are planned to be staggered in order to avoid conflict with local school pick up times. Overall, I do not believe the proposal will result in significant traffic, noise, or light disturbance.

For these reasons, I respectfully ask the Council to approve this application.
