Comment Reasons:

Comment: Dear Sir/Madam,

I am writing to express my full support for Planning Application DM2025/01591. I am a local resident and have been part of the community for several years.

I believe this proposal will provide significant benefits to the local area. The development will offer valuable community space, including health and wellbeing programmes, inclusive facilities, and activities designed to bring people together. In particular, the dedicated space and activities for women will provide an important and positive contribution to inclusivity within our community.

The proposal also includes educational programmes and activities for children, which will support young people's development in a safe and structured environment. These types of facilities are greatly needed locally and will serve families in a constructive and meaningful way.

From a planning perspective, the building is modest in scale and in keeping with the character of the surrounding area. It represents a low-intensity use compared to many alternative forms of development that could be permitted on the site. I do not believe it will cause significant traffic, light, or noise disturbance.

The scheme has carefully considered transport and access. The inclusion of 12 on-site parking spaces plus 2 disabled bays will help manage vehicle demand responsibly. Cycle racks and encouragement of sustainable travel are also positive elements of the proposal. It is reassuring that Friday prayers are being staggered to avoid conflict with local school pick-up times,

demonstrating thoughtful planning and consideration for neighbours.

I also welcome that greenery is being maintained as part of the development, helping preserve the visual quality of the area.

Overall, I believe this application represents a well-considered, community-focused proposal that will benefit local residents while respecting the character of the neighbourhood.

I respectfully ask the Council to approve Planning Application DM2025/01591.
