Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I strongly support this planning application for the change of use from an Ambulance Station to a mixed-use Place of Worship (Class F1) and Community Hub (Class F2), including the proposed extensions and facilities.

I moved to this area two years ago, and during that time I've felt that the community could really benefit from a dedicated space like this. There are many families and individuals here, but limited places that bring people together in a positive, structured, and inclusive way. This mosque and community hub would fill that gap and provide a welcoming centre for social, educational, and charitable activities.

The trustees have been very welcoming, responsible, and thoughtful in their approach. From my interactions with them, it's clear they care deeply about being good neighbours and contributing positively to the local area. I believe this development will enhance the community, strengthen relationships between people of different faiths and backgrounds, and promote understanding and cohesion.

The proposed improvements, including cycle storage and refuse facilities, show good planning and consideration for sustainability and local impact. Overall, I believe this project will be a valuable asset to the neighbourhood and should be approved.

For these reasons, I strongly support granting planning permission.
