Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as a resident of Bawtree Close to express my support for this planning application. It is introducing a community-focused facility that will greatly improve the physical and mental well-being of a large number of local residents.

I welcome the fact that the previous busy operational facility on the site is now being replaced by a modest, community-focused development. The proposed centre will be significantly quieter and much more in keeping with the surrounding residential area.

The proposal also includes additional parking provision and sustainable travel methods e.g. the cycle store. This demonstrates consideration for local residents and will help minimise any impact on surrounding roads. The majority of people attending to such community-focused buildings tend to walk, which is another positive impact to the local area.

In terms of design, I find the development to be in line with the aesthetics of the area. The scale and layout appear proportionate and well thought-out, ensuring that the building integrates comfortably within the existing streetscape.

Overall, I believe this proposal represents a positive change for the neighbourhood, providing a well-managed and community-focused facility that is sympathetic to its surroundings. I respectfully ask the Council to approve planning application.
