Comment Reasons:

Comment: I am writing to offer my support for the Planning Application ref: DM2025/01591

As a resident of Burdon Lane, living less than a mile from the proposed site, I consider this an ideal and accessible location for a community facility. Its proximity means it can be easily reached on foot by myself and many others in the surrounding neighbourhood.

I am pleased to see a proposal that combines a place of worship with space for community events and activities. Centres like this contribute significantly to social cohesion, providing a respectful and organised setting for learning, gatherings, and positive community engagement.

The development also brings potential economic and social benefits. Construction will create shortterm employment opportunities, and once the centre is operational, roles such as security staff and traffic marshals during prayer times could offer ongoing local jobs. Additionally, the centre is likely to encourage volunteering among residents and young people, helping to build civic pride and community participation.

Regarding traffic, attendance will mainly coincide with prayer times, which generally fall outside the busiest commuting periods. This naturally limits any overlap with peak traffic. Moreover, most worshippers will be local to the borough and already familiar with the area's parking rules and traffic restrictions.

In summary, I believe this proposal represents a thoughtful and beneficial addition to the community, offering social, cultural, and economic value. I respectfully urge the Council to approve

the Planning Application.
