Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: As a resident of Sutton I would like to express my support for this planning application. The proposal will deliver an important community facility that enhances the health and well-being of local residents.

The replacement of the former busy use with a smaller-scale, community-oriented development is a welcome improvement. The new centre is expected to operate more quietly and sit more comfortably within the surrounding residential setting. Plans for additional parking and sustainable travel options, including cycle storage, show thoughtful consideration for neighbours and will help reduce pressure on nearby roads.

In terms of appearance and scale, the scheme is well designed and complements the character of the area. Overall, it represents a positive addition to the neighbourhood, and I respectfully urge the Council to grant approval.
