Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to express my support for Planning Application DM2025/01591. As a local resident, I welcome this proposal as it will provide meaningful community benefit through health, wellbeing, educational and inclusive programmes, including dedicated space and activities for women and children. The building appears modest in scale, appropriate for the area, and represents a low-intensity use compared with other potential developments. I note positively that the scheme includes 12 on-site parking spaces, two disabled bays, cycle racks, and encourages sustainable travel choices. It is also reassuring that existing greenery is being maintained as part of the design. The plan to stagger Friday prayers to avoid school pick-up times demonstrates thoughtful consideration of local traffic patterns and neighbours. Overall, I believe the proposal will not create significant traffic, noise or light issues. For these reasons, I respectfully ask the Council to approve this application.
