Comment Reasons:

Comment: I fully support the planning application DM2025/01591

As a local resident of over 10 years I feel that there is a strong need for a centre which will benefit the community, it will help bring people together regardless of age, ethnicity or religion.

As a woman, the provision of a space walking distance from my home will encourage myself as well as many women in the neighbourhood to be able to attend women friendly programs related to various social activities, such as health and wellbeing, easily without having to travel using a car or public transport.

With regards to traffic issues I personally do not believe this is a factor as most people in the area will be able to walk due to its easily accessible location.

Also, the timings of prayers have been specifically designed to avoid congestion/traffic especially during school pick up times.

There will also be cycle racks provided which will promote environmentally friendly and sustainable travel.

The manner in which the building is structured looks aesthetically pleasing and in line with the local area which will enhance the appearance of the neighbourhood.

I would ask the council to approve the application.
