Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: Living close to the proposed community centre, I am most excited about the potential for guided youth projects there. The area currently lacks structured activities for young people and opportunities to build meaningful connections.

This centre would give young people a chance to take part in group activities like football, badminton, table tennis, and hikes while fostering a sense of community open to everyone.

I believe the local area would greatly benefit from these opportunities. Providing spaces for young people to socialise and form healthy relationships can help reduce the risk of anti social behaviour, support mental health, and combat loneliness, all which are increasingly prevalent in young people today.
