Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: As a resident living in very close proximity to the site, I strongly object to this application.

Parking is already extremely problematic due to The Avenue school, with staff parking on the nearby roads, and then the parents carrying out drop-offs and collections. At peak times, this congestion causes significant difficulty for the S4 bus service and sometimes also restricts access for essential services such as refuse collection vehicles, potentially could lead to problems for the police, ambulance & fire officers.

The application proposes only 10 car parking spaces and for a facility who are anticipating a maximum 250 people. This level of provision is wholly inadequate and will inevitably result in increased on-street parking, further exacerbating existing congestion and safety concerns.

The insufficiency has already been acknowledged by the applicants themselves, as evidenced by their request to use parking spaces at the nearby bowls club. This in itself demonstrates that the proposal is not suitably planned for the scale of use being suggested.

For these reasons, I believe the application will have a significant negative impact on local residents and existing transport and access arrangements, and I therefore object to it in its current form.
