Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to express my support for the proposed change of use at the former Ambulance Station on Dorset Road.

The development of a mixed use space combining a community hub (F2) and a place of worship (F1) will provide valuable social, cultural, and educational benefits for local residents.

Transforming an underused site into an active community facility will help strengthen community cohesion, create safer and more vibrant surroundings, and increase access to supportive services for families and individuals in the area.

The planned improvements to the building, including updated frontage and proper cycle/refuse storage, will also enhance the visual quality and practicality of the site.

Overall, this proposal represents a positive initiative in the local community and makes constructive use of a site that has been inactive for some time. I fully support the application.
