Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as a resident of Sandringham Court on Dorset Road to express my support for planning application DM2025/01591.

Having reviewed the proposals, I believe the design of the centre is thoughtful and in keeping with the aesthetics of the surrounding area. The scale and appearance are proportionate and respectful of neighbouring properties, ensuring that the development integrates well within the existing residential character.

I particularly value that this is a modest development rather than a large-scale scheme. The building is not excessive in height or bulk and, in my view, will not cause issues in relation to light or overshadowing. It is reassuring to see a proposal that has clearly considered residential amenity.

I also welcome the fact that the site is being developed as a community centre. It could potentially have been redeveloped into a large block of flats, which may have resulted in significantly greater density, traffic and pressure on local infrastructure. In comparison, a community-focused use represents a balanced and positive outcome for the neighbourhood.

The inclusion of additional parking spaces is another sensible feature of the plans, helping to manage demand and minimise impact on surrounding roads.

Furthermore, I appreciate that the greenery and landscaping are being maintained as part of the proposal, which contributes positively to the appearance of the site and the wider streetscape.

Overall, I believe this application represents a well-considered and beneficial development for the area. I respectfully ask the Council to approve planning application.
