Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing on behalf of myself and my family as residents of Belmont Rise to express our strong support for planning application DM2025/01591.

One of the main reasons we support this proposal is that the community centre will be within comfortable walking distance of our home. Having a local facility that we can safely access on foot makes participation far more convenient for families and encourages stronger neighbourhood connections.

As a family, we greatly value the opportunity to plan community events in advance without the ongoing difficulty of trying to book temporary premises that are not consistently available throughout the year. A dedicated, permanent community space will provide stability and allow activities, educational sessions and family programmes to be organised in a reliable and structured way.

I understand that the Friday prayer times have been carefully scheduled to avoid clashes with school pick-up times at Avenue Primary Academy. This demonstrates thoughtful planning and clear consideration for traffic flow and neighbouring residents during busy periods.

The new site will include 12 new on-site parking spaces, including 2 disabled bays, as well as cycle racks. This shows a balanced and responsible approach to accessibility - accommodating those who need to drive, providing inclusive access for disabled visitors, and encouraging sustainable travel options.

Overall, we believe this development will be a positive and well-managed addition to the area, delivering genuine community benefit while being sensitive to its surroundings. We respectfully ask the Council to approve planning application.
