Comment Reasons:

Comment: I strongly support the granting of planning permission for the change of use from a former ambulance centre to a community centre and place of worship. The building is already established within the neighbourhood, and repurposing it will give it renewed life and positive purpose. As a local resident living less than a mile away, I am able to walk to the site easily, which promotes sustainability and reduces the need for additional traffic or parking pressure. Having a facility within walking distance is especially important for families, elderly residents, and those without access to a car. The centre will provide valuable support to children through organised sports activities and structured programmes that encourage health, teamwork, and positive engagement. It will also create a welcoming space for women to socialise, build supportive networks, and reduce isolation within the community. Overall, this development will strengthen community cohesion, improve wellbeing, and make constructive use of an existing building for the benefit of local residents.
