Comment Reasons:

Comment: Dear Sir/Madam,

I am writing to express my full support for Planning Application DM2025/01591.

I am a local resident living within walking distance of the proposed site, and as a parent of young children, this development is of particular importance to my family and many others in the area. The proposal represents a valuable investment in community infrastructure that will deliver meaningful social, educational and wellbeing benefits.

The planned youth facilities and educational programmes for children will provide structured, positive activities in a safe and supervised environment. As a parent, I strongly believe access to such facilities within walking distance encourages healthy routines, reduces reliance on car travel, and supports young people's development. The inclusion of dedicated activities and space for women is also a significant benefit, ensuring the facility is inclusive and serves the whole community.

From a planning perspective, the building is modest in scale and appears in keeping with the surrounding area. The proposed use is low-intensity compared to many alternative forms of development that could be brought forward on the site. I understand that the application includes 12 on-site parking spaces plus 2 disabled bays, alongside cycle racks to encourage sustainable travel. Given that many users, including myself, can walk to the site, I do not believe the development will generate significant additional traffic.

It is also positive that existing greenery is being maintained, helping the development integrate sensitively into its surroundings. The measures outlined, including staggered Friday prayer times to avoid conflict with local school pick-up periods, demonstrate thoughtful planning and consideration for neighbours.

Overall, I do not believe the proposal will cause significant traffic, light or noise issues. Instead, it offers clear and tangible community benefits, supporting health, wellbeing, education and social cohesion.

For these reasons, I respectfully ask the Council to approve Planning Application DM2025/01591.

Yours faithfully,
Tariq Surty
