Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am a local resident and would like to express my strong support for the proposed change of use from the former Ambulance Station to a mixed-use Place of Worship and Community Hub.

This proposal represents a very positive use of the building and will bring meaningful benefits to the local community. Having a dedicated space for worship alongside a community hub will provide a welcoming environment for people of all ages and backgrounds, encouraging social interaction, support networks and community cohesion. Facilities like this are greatly needed in our area and will serve as an important resource for local families and residents.

The proposed extensions and adjustments to the building appear proportionate and thoughtfully designed. In my view, they will improve the functionality of the site without negatively impacting the character of the surrounding area. The inclusion of cycle storage and appropriate refuse facilities also shows consideration for sustainability and good site management.

Overall, I believe this development will enhance the area, make effective use of an existing building, and provide long-term social value to the community. I fully support the application and hope it will be approved.
