Re: Letter of Support - Planning Application DM2025/01591

I am writing to express my full support for Planning Application DM2025/01591.

I live within walking distance of the proposed site.

The proposal is very positive and seems to have something for everyone. There are health and wellbeing programmes, inclusive facilities, and supporting women. This proposal seems to address gaps in local provision and would be very welcome.

The educational programmes for children and the youth-focused activities on offer are exactly the kinds of resources that strengthen a community and give young people somewhere positive to go.

I also note that Friday prayers are being staggered to deliberately avoid conflict with school pickup times. This clearly demonstrates a thoughtful and considerate approach to the surrounding community.

I feel confident as a neighbour myself that the people behind this proposed development are committed to being good neighbours.

In terms of its physical impact, the building is not large and sits comfortably within the character of the local area.

In our area there are often concerns around parking. However it is noteworthy that there is provision of 12 on-site parking spaces plus 2 dedicated disabled bays.

Cycle racks are a great addition supporting sustainable travel.

I am also pleased to see that existing greenery is being maintained as part of the scheme, which helps preserve the look and feel of the area.

On balance, this development will not cause significant issues in terms of traffic, noise or light. The proposal has clearly been designed with the local community in mind, and I am confident it will make a positive contribution to the area.

I respectfully urge the planning committee to approve this application.

Yours faithfully

Mona Ahmed-Surty
