Address: 9 Sandpiper Road Cheam SM1 2ZU

Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to DM2025/01591 because the proposal would cause unacceptable harm to highway safety, parking stress, and residential amenity in a constrained residential area, particularly during school-run and evening peaks.

I regularly use Dorset Avenue

I regularly experience heavy parking during school drop-off/pick-up and poor visibility at junctions due to parked cars. Drivers do three-point turns/reversing in cul-de-sac roads and it becomes extremely dangerous for children crossing roads.

The area is a school-run environment and already has high pedestrian movement. Any increase in drop-offs, circulating traffic, and on-street parking will reduce visibility and increase risk to children and pedestrians.

"On 12th February 2026 at the location of this proposed site, my child nearly got hit by a car due to heavy traffic and stressed drivers and poor visibility when crossing the pavement outside this site.

The applicant's own Transport Statement indicates significant overspill: Worst case refers to up to 80 vehicles locally.

TRANSPORT_STATEMENT-6060376

Only 14 on-site spaces (with an assumption 3 may be staff), leaving 69 vehicles on-street in the worst case.

This level of overspill would lead to blocked driveways/pavements, unsafe manoeuvres and obstruction risks.

I ask Sutton Council to refuse DM2025/01591 due to unacceptable highway safety, parking and amenity impacts.
