Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: "I am writing to express my strong support for this application. Repurposing a former public site for community use is a logical and sustainable choice, far superior to leaving the space vacant. The proposed multi-use hub and place of worship offers a versatile space that serves the whole community rather than a single demographic.

By providing local access to youth services, toddler groups, and elderly support, the centre reduces the need for residents to travel outside the borough. This not only fosters social cohesion and cross-cultural understanding but also strengthens our local support networks. Regarding logistics, the applicant has clearly addressed traffic and parking concerns. Given that local congestion is largely limited to school-run hours, I believe the centre's activities will have a minimal impact on road safety. I urge Sutton Council to approve this beneficial proposal."
