Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment:- Parking shortfall: only 14 on-site spaces. Worst case assumes 69 cars will park on nearby roads, with up to 80 vehicles locally during the overlap.

Local residents would not get the parking priority.

- School safety risk: Avenue Primary has 1,034 pupils. More traffic/parking means more danger at drop-off/pick-up. As the school gives benefit of nurseries at different time the area around the school is very busy and parking is always the problem. The residents have raised parking issues near school and changing ambulance centre for prayer will make it worsen as attendees may leave around at 11:00 PM.

It will be risky for the kids crossing roads as year 6 kids can come alone with consent. Due to traffic it is very very dangerous to cross the roads. More vehicle due to F1 class prayer centre or F2 class community place will make it worst.

- Late-night nuisance: dispersal around 11pm = noise, engines, doors slamming, cars circling for spaces.

- Vulnerable residents: a nearby care home and elderly neighbours are hit hardest by obstruction and late-night disturbance.
