Comment Reasons:

Comment: I am writing to share my support for Planning Application DM2025/01591 for the former Ambulance Station on Dorset Road.

As a local mom with children at the nearby school, this proposal feels very positive and important for families like mine, and I wanted to share my personal thoughts.

Having a community hub within walking distance would make a real difference to us. I would be able to walk there with my children, which feels safe, convenient and part of everyday life. It's comforting to have somewhere nearby where families can spend time together.

The idea of playgroups and activities for children close to home is really lovely. Spaces like this help children learn, make friends and grow in confidence, and it would be wonderful to have that support within our own community.

It's also reassuring to know there would be activities for teenagers and young people. Having somewhere local where they can spend time in a positive environment is so important for their wellbeing and sense of belonging.

Walking instead of driving, because it's so close, I would walk there rather than drive, and I imagine many other local families would too. This helps reduce traffic and keeps things feeling calm and local.

Bringing the community together, A place like this brings people together, helps build friendships

and creates a stronger sense of community. I think it would be a really positive addition to the neighbourhood.

I believe this proposal will bring real benefits to local families and make good use of the building.

I kindly request that the Council approve this application.
