Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Dear Council planning committee,

I would like to object to DM2025/01591 due to highway safety and parking stress. The provision of only 14 spaces for up to 250 visitors creates a dangerous 60+ car shortfall on Dorset Road. This will cause illegal parking and obstruct emergency access. Additionally, late-night dispersal at 11pm will cause unacceptable noise and loss of amenity for nearby elderly residents and the local care home.

The parking shortfall is unsustainable for a residential street, leading to dangerous congestion. The noise and disturbance from late-night use will harm the quiet character of the area and impact vulnerable neighbours. This proposal represents an over-development of the site that the local infrastructure cannot support.

Also congestion and safety to children, parents and grand parents come to Avenue primary school to drop their children.

I strongly object as this will completely change the residential character of the neighbourhood.

Thanks for the considering views of the fellow residents.

Regards

Chandra
