Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing to express my support for the proposed change of use from Sui Generis (Ambulance Station) to mixed use Classes F1 (Place of Worship) and F2 (Community Hub), including the proposed extensions.

As someone who lives locally, I believe this development would bring real and meaningful benefits to me and to the wider community. Having a place of worship and community hub nearby would provide a safe and welcoming space for prayer, community gatherings, educational sessions, and local support activities. It would make it easier for me and others to participate in community life without having to travel further afield.

The reuse of the existing building for community purposes feels like a positive and sensible improvement to the area. The proposed extensions appear proportionate and appropriate, and the inclusion of cycle storage and refuse facilities shows consideration for sustainability and responsible site management.

Overall, I feel this proposal would strengthen community ties, improve local provision, and contribute positively to the character of the area. I respectfully request that Sutton Council approves this application.
