Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I strongly object to the proposed development of the community hall. The introduction of a facility of this nature within a predominantly residential and school-focused area raises significant concerns for local residents. The location is not suitable for a venue that is likely to attract regular gatherings and increased visitor numbers.

Traffic congestion is already a serious issue along Dorest Avenue, Avenue Road, and Holland Avenue, particularly during school drop-off and pick-up times. The addition of a community hall would inevitably generate further vehicle movements, worsening congestion, increasing safety risks for children and pedestrians, and placing additional strain on roads that are already operating beyond comfortable capacity.

Furthermore, such a centre is likely to generate noise, particularly during evenings and weekends when residents expect peace and quiet. Weekends currently provide respite from weekday school traffic and activity. Approving this proposal would disrupt the character of the neighbourhood and negatively affect the quality of life for those living nearby.
