Address: 33 - 38 Stanstead Manor St James' Road Sutton SM1 2AZ

Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I wish to formally object to the proposed development of the community hall and within this residential area. The scale and nature of the facility are not compatible with the existing character of the neighbourhood, which is primarily residential and closely associated with a nearby school. Introducing a venue intended for organised gatherings and events represents a significant intensification of use that is out of keeping with the current environment.

Traffic and highway safety present serious concerns. Dorest Avenue, Avenue Road, and Holland Avenue already experience substantial congestion, particularly during school drop-off and pick-up times. The addition of a venue capable of hosting regular meetings and larger events would materially increase vehicle movements, on-street parking demand, and the risk to pedestrians, including children. The surrounding road infrastructure is not designed to accommodate further sustained traffic pressures.

There are also legitimate concerns regarding noise disturbance, evening and weekend activity, and the cumulative impact on residential amenity. Weekends currently provide relief from weekday school traffic and activity. The operation of a community and is likely to extend activity into evenings and weekends, generating vehicle noise, doors closing, conversations, and general disturbance. This would erode the quiet enjoyment of neighbouring properties and negatively affect the overall quality of life for local residents.
