Comment Details

Commenter Type:

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: The planning application seeks to continue to use the premises for the community benefit, albeit for a different purpose. It entails reinforcing community infrastructure by developing and managing the premises in a way that serves the need of a significant part of the community inclusive of all ages, genders, socio economic groups, and cultural backgrounds. In addition, the premises will also be accessible for use by the broader community. It therefore meets the critical and growing need in the community for public spaces, informal education, recreation, and engendering a deeper civic sense.

The premises is not intended to be used 24/7 and has enough of the parking space for its normal use during specific times of the day that mostly fall outside the office working hours and school hours. This the premises's regular use is unlikely to cause any crowding or traffic issues. In the event of occasional bigger events, as anywhere else, these can be preplanned and suitably timed to ensure the premises remains a community service in its true spirit.
