Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I am not able to understand this application. A place of worship in a cul-de-sac, near a school and into very much a residential area which is already very crowded seems unfit. It has many such areas of concern which makes it vulnerable to elders in the area, also to the children around and from the nearby school. Sutton Council should think of the members of the public in the area and their benefits rather than be politically or economically motivated. This place of worship will drive so much traffic and people from all over which will make this place untenable. I strongly object to - I am concerned that the proposed development may affect the quiet and peaceful character of the area. This neighbourhood has always been calm and we are worried the new change could alter that atmosphere. While we respect the purpose of the new building, I am concerned it may bring more activity and reduce the tranquillity residents value. The area is currently very peaceful, and I am worried that increased footfall and traffic could impact that.
