Comment Reasons:

Comment: I am writing to express my strong support for Planning Application DM2025/01591.

I live on Harefield Avenue in Cheam and have been a resident here since April 1987. Having lived in the area for nearly four decades, I care deeply about the wellbeing and development of our local community. The proposed centre would be within walking distance for me, which makes it particularly accessible and beneficial.

I believe the centre would provide an excellent place to socialise and connect with neighbours. A secure and comfortable venue to hold community events would be a real asset to the area. It would create opportunities for residents of all ages to come together in a positive and structured environment.

The focus on community events and wellbeing initiatives would be especially valuable. In today's climate, facilities that support general wellbeing - particularly mental health - are extremely important. Having a local, inclusive venue where people can meet, participate in activities, and feel part of a community can make a significant difference.

I am also encouraged by the opportunity to engage in light physical activities such as table tennis and similar recreational pursuits.

These types of activities promote both physical and mental health and are suitable for a wide range of age groups.

The centre being an all-inclusive venue is particularly important. It would provide a place for youth

activities, giving young people a safe and constructive space to spend their time. Additionally, students in the area could benefit from access to professional academic support from experienced individuals within the neighbourhood.

I also believe facilities such as a mother and toddler group would be extremely beneficial for young families, offering support networks and early social interaction for children.

Overall, I strongly believe this proposal would enhance community cohesion, wellbeing, and local engagement. I respectfully request that the Council approve Planning Application.
