Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to the proposed change of use of the former ambulance station to a place of assembly.

The site is located close to a school, and the area already experiences significant congestion during drop-off and pick-up times. The development is likely to increase traffic and create parking overspill on surrounding residential streets, raising highway safety concerns for children and families.

In addition, the intensity of use, associated noise from gatherings, and vehicle movements-particularly during evenings and weekends-may negatively affect nearby residents. Increased traffic may also impact local air quality.

For these reasons, I request that the application be refused unless these concerns are fully addressed.
