Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I wish to formally object to this planning application. In my view, approving this proposal would place additional and unsustainable pressure on the local road network. The area already experiences significant congestion during school term times, and any further increase in traffic is likely to exacerbate safety risks for pedestrians, cyclists, and residents.

This is of particular concern for elderly residents and families with young children, who may be disproportionately affected by increased traffic and reduced road safety.

Furthermore, the proposed development would introduce a substantial rise in visitor numbers and general activity within what is currently a quiet residential neighbourhood. Such a change risks undermining the peaceful character and established local environment that residents value.

For these reasons, I respectfully urge the planning authority to reconsider and refuse this application.
