Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I am writing as a resident of York Road to express my strong support for planning application DM2025/01591.

At this day and age, it is very important that the local residents have a place where they can get together in times of need and crisis. This place as a community centre can give just that space. It brings an opportunity for the locals to get together, share their thoughts, experience, cultural values and support to each other to make a better place to live. The children will be able to understand and live in a diverse environment where they will be able to learn from each other. This place will also allow a safe space to hold women's health and wellbeing programs that are culturally sensitive and I'm quite interested to attend such events.

In my view, this proposal represents a positive investment in our neighbourhood and will strengthen community ties while providing practical local benefits. I understand quite a few of my neighbours have raised concerns over parking etc. However I'm not convinced that it would create such an issue. My daughter walks to Avenue Primary School and car drivers are always careful when children are around. The parents help each other out to make sure children are safe. Also this centre will operate during non school runs. On top of it there are 12 car parking spaces in addition to 2 disabled parking which should be enough for the type of activity that would take place in the centre. Also a healthy option for cycle to the centre is available as there will be bike racks facilities.

I am pleased to support this application and respectfully ask the Council to approve planning application DM2025/01591.
