Stance: Customer objects to the Planning Application

Comment Reasons:

Comment:Subject: Objection to Proposed Mosque Development in Sutton

Dear Council Members,

I am writing to formally object to the proposed construction of a mosque at Dorset Road. My concerns are based on practical and community planning grounds, which I believe warrant serious consideration.

1. Traffic and Parking Impact

The proposed site is located in an area that already experiences significant traffic congestion, particularly during school hours and peak commuting times. The addition of a place of worship that attracts large gatherings-especially on Fridays and religious festival days-would further exacerbate traffic flow and parking shortages. Nearby residential roads are not designed to accommodate such levels of vehicular activity.

2. Proximity to Schools and Residential Zones

The site is close to several schools and residential properties. Increased traffic and crowds during prayer times could create safety concerns for children, pedestrians, and local residents. The noise and activity may also disturb the quiet character of surrounding neighbourhoods.

3. Adequate Existing Facilities

There are already several mosques and Islamic centres located within a reasonable distance of Sutton. These established venues are meeting the needs of the existing Muslim community in the wider area. It is therefore questionable whether this additional development is necessary or

justified based on current local demographics.

4. Community Balance and Infrastructure

Developments of this nature must consider the capacity of local infrastructure and the composition of the immediate community. Sutton's planning policy should ensure sustainable development that reflects genuine local need rather than contributing to overdevelopment and strain on shared public spaces.

I respectfully ask the Council to refuse planning permission for this proposal on the basis of these material concerns related to traffic, safety, and planning policy compliance.

Thank you for your time and for considering the views of local residents.

Yours sincerely,
Lekha
