Comment Reasons:

Comment: I am writing to express my support for Planning Application DM2025/01591.

I have been a resident at this address for over 30 years and care deeply about the wellbeing and development of our local area. Having lived here for three decades, I have seen both the strengths of our community and the areas where greater support is needed.

On a personal level, I also feel that a centre like this would make a real difference to me. Now that my sons have moved out of the house, I have at times felt homesick and a little lonely. Having a welcoming local space where women can come together, take part in activities, and simply connect with others would do wonders for my mental health and overall wellbeing. A supportive sense of community close to home can be invaluable, particularly during life transitions.

The proposal also offers wider community benefits, including health and wellbeing programmes, inclusive facilities, dedicated activities and space for women, and educational programmes for children. These initiatives would provide constructive opportunities for families and young people, strengthening community ties.

The building itself is modest in scale and in keeping with the character of the surrounding area. It represents a low-intensity use compared to alternative developments that could be pursued on the site, and I do not believe it would cause significant traffic, light, or noise issues.

Practical matters appear to have been carefully considered. The plans include 12 on-site parking spaces and 2 disabled bays, as well as cycle racks to encourage sustainable travel. Greenery is

being maintained, helping to preserve the character of the area. It is also reassuring that Friday prayers are being staggered to avoid conflict with local school pick-up times, demonstrating consideration for neighbours and existing traffic patterns.

Overall, I believe this proposal would provide meaningful social and wellbeing benefits while remaining respectful of the local environment. I respectfully ask the Council to approve Planning Application DM2025/01591.
