Comment Reasons:

Comment: Dear Planning Officer,

Re: Support for Planning Application DM2025/01591

I am writing to formally express my full support for Planning Application DM2025/01591.

As a member of the local community, I believe this proposal will provide meaningful and lasting benefits to residents in the area. The development is modest in scale and designed in a way that is in keeping with the surrounding neighbourhood. It represents a low-intensity use of the site compared to other forms of development that could potentially take place.

I strongly welcome the community-focused nature of the proposal. The inclusion of health and wellbeing programmes, inclusive facilities, dedicated activities and space for women, and structured educational programmes for children will provide valuable support to local families. These initiatives will strengthen community cohesion and offer positive opportunities for people of all ages.

The proposal has clearly considered practical matters. The provision of 12 on-site parking spaces, including 2 disabled bays, along with cycle racks to encourage sustainable travel, demonstrates thoughtful planning. I also understand that Friday prayers will be staggered to avoid conflict with nearby school pickup times, which shows a responsible and considerate approach to traffic management.

It is reassuring that greenery is being maintained and that the development is not expected to generate significant traffic, noise, or light disturbance. Overall, I believe this will be a well-managed and beneficial addition to the local area.

For these reasons, I respectfully ask the Council to approve Planning Application DM2025/01591.

Yours faithfully,

Furkhanul Haque
