Comment Reasons:

Comment: Dear Planning Officer,

Re: I support planning Application DM2025/01591

I am writing to express my support for Planning Application DM2025/01591.

As a 16-year-old who lives locally, I believe this proposal would have a very positive impact on young people in the community. There are not always enough safe and structured spaces where teenagers can spend time productively, learn new skills, and take part in organised activities. The educational programmes and youth activities proposed would provide a constructive environment that encourages personal development and keeps young people engaged in positive pursuits.

I also think it is important that the development promotes health and wellbeing for all age groups. Having a community-focused space that supports families, women, and young people helps strengthen the area and creates a stronger sense of belonging.

From what I understand, the building is modest in size and designed to fit in with the surrounding neighbourhood. The inclusion of 12 on-site parking spaces, including 2 disabled bays, as well as cycle racks, shows that access and sustainable travel have been carefully considered. The plan to stagger Friday prayers to avoid school pickup times also demonstrates thoughtful planning to minimise traffic congestion.

In my opinion, this proposal would not cause significant traffic, noise, or light problems, and it

maintains greenery in the area. Instead, it would provide valuable opportunities for young people like me to benefit from positive community engagement.

For these reasons, I respectfully ask the Council to approve Planning Application DM2025/01591.

Yours faithfully,

Muneeful Haque
