

# Comments for Planning Application DM2025/01591

## Application Summary

Application Number: DM2025/01591

Address: Ambulance Station Dorset Road Belmont SM2 6JH

Proposal: Change of use from Sui Generis (Ambulance Station) to mixed use Classes F1 (Places of Worship) and F2 (Community Hub) involving the erection of a part one, part two storey front and side extension, increase in height to part of building and provision of cycle and refuse stores.

Case Officer: Polly Davidson

## Customer Details

Name: Mrs Shailaja Giraddi

Address: 26 Matlock Crescent Cheam SM3 9SP

## Comment Details

Commenter Type:

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to this proposal because it would impose un-controllable traffic congestion, noise disturbance, and visual harm on a quiet residential neighbourhood that is wholly unsuited to this scale of development.

The applicant's own figures indicate significant overspill parking, with more than 70 vehicles likely to occupy surrounding streets and up to 80 cars circulating during peak overlap periods. These are narrow residential roads with limited capacity. They cannot safely absorb this volume of additional traffic without causing obstruction, reduced visibility at junctions, blocked driveways, and increased danger for pedestrians and motorists. Emergency access would also be compromised.

The risk is particularly acute given the proximity of Avenue Primary Academy, which serves over 1,000 pupils. Additional traffic and roadside parking during school drop-off and pick-up times would materially increase safety risks around an already sensitive and congested environment. Protecting children's safety must be paramount.

Late-night dispersal of up to 250 people at around 11pm would generate unavoidable disturbance - raised voices, engines idling, car doors slamming, and vehicles circulating in search of parking. Such activity is fundamentally incompatible with a suburban residential setting and would significantly undermine residents' ability to rest and enjoy their homes.

Vulnerable neighbours, including residents of the nearby care home, would be disproportionately affected by obstruction, noise, and late-evening disruption.

Furthermore, the proposed extensions and increased height would result in a visually dominant structure out of keeping with the domestic scale and character of surrounding homes, eroding the established streetscape.

For these reasons, the proposal represents an over-intensive and inappropriate form of development, and I respectfully urge the Council to refuse planning permission.
