Comment Reasons:

Comment: Dear Sutton Council,

I strongly support this Planning Application DM2025/01591.

I am a 22 year old female and a local resident of 12 years.

As a 4th Year Medical Student studying at King's, I am extremely busy, have many commitments and very limited time. Despite all of this, spending time with my local community through attending prayers, breaking my fast in Ramadan, celebrating Eid and attending events has been a priority for me.

I have grown up in the area and, the last few years of BASMA have really improved my experience as I have been able to form friendships that I have never had and improve my mental and spiritual health significantly. Everyone is extremely kind and welcoming, it has been lovely to see more diversity, familiar faces and to even walk with my friends to-and-from the centre. It is really empowering and inspiring to me that we have the route, as citizens of Cheam & Sutton, to have our individual voices heard, recognised and needs supported.

As described above, for young people like myself, this space has had a wholly positive impact. It has also made me very happy to see a space, for the young and old, to be physically active through regular badminton sessions. I have noticed a significant difference in this regard. My parents (who work as doctors in A&E) have struggled to make time to exercise throughout my entire life, yet I now see them excited and racing their friends to sign up to play badminton!

Studying Medicine, I feel this has the capacity to holistically improve Sutton's health - as regular exercise, spiritual fulfilment and social connection improve wellbeing, and act to prevent the incidence of the comorbidities in our healthcare landscape right now.

With prayer times being staggered, the environment being preserved and the majority of residents already walking/cycling to the centre, I strongly believe this initiative is sustainable and one that enriches our borough.

Thank you for your time and consideration.

I wholeheartedly stand by this project and would really appreciate your support for the wellbeing of our community.

Yours sincerely,
Noor Amir Khan
