Support Letter - Planning Application DM2025/01591

I am writing to formally express my strong support for planning application DM2025/01591.

I believe the proposed change of use from a former ambulance station to a mixed-use facility including a Place of Worship (Class F1) and Community Hub (Class F2) will provide significant benefits to the local community. The proposal represents a positive and sustainable reuse of an existing building, ensuring it continues to serve a meaningful public function.

In my view, the development supports local needs by providing accessible community space and facilities that will benefit residents of all ages and backgrounds. Community hubs play an important role in fostering social cohesion, wellbeing, and engagement, and this proposal aligns with those objectives.

The scale and nature of the proposed use appear appropriate for the area, and the continued community-focused function of the site would contribute positively to the character of the neighbourhood. Reusing the building for community and worship purposes is a responsible approach that enhances local provision without inappropriate overdevelopment.

For these reasons, I respectfully request that Sutton Council approves planning application DM2025/01591.

Yours faithfully,

Mr Alix Ali
